## Deerfield | easy Coffee Table

\$970.00

### Description

This is our version of the classic elliptical coffee table design, also known as the surfboard table with wire base. The Deerfield coffee table is made with a polished stainless steel cross style base which supports a top fabricated from multiple layers of bonded plywood and finished in a melamine laminate surface of either black or white. True to the original, this table adds a coastal feel to your room and provides a convenient and architecturally interesting centerpiece for placing beverages, flowers, books, magazines and more.
