## Veteran | Panton Floor Lamp

\$556.00

### Description

This is our reproduction of Verner Pantan's Panthella floor lamp, designed in 1971. One of his more popular designs, it is also offered as a table lamp. It is composed of an injection molded white opal shade with the base and housing in white injection molded aluminum. The stem of this fixture is constructed of white aluminum. The basic light principle aimed to create a lamp in which the base as well as the shade would act as a reflector. The lamp's light source is hidden under a white, hemispheric acrylic shade and its white, trumpet-like base contributes to a beautiful distribution of light as well as a well balanced form. The Pantan Floor Lamp creates soft and diffused illumination which makes it ideal for general accent or reading lighting.
