Veteran Pendant Lamp

\$388.00

Description

An object cannot become a design icon until it has stood the test of time and appears quite naturally in different settings, giving it a symbolic aura of its own. FlowerPot is just that. Of the lamps Verner Panton designed, FlowerPot and Topan stand out as some of the simplest and most memorable designs. We have now re-created those lamps at HONORMILL. The Panton Flower Pot Pendant, made from spun aluminum. The famous lamp, designed in 1969, was named after the happy days of Flower Power. The beauty is in the simplicity of the spherical design. Great when hung in a cluster for a dramatic effect in any room. Aluminum Powder Coat/Stainless steel
