Dewitt | easy Shell Counter Stool - Metal Base

\$258.00

Description

HONORMILL's DeWitt collection features quality reproductions of the mid-century classic, shell chair design. Available in a wide range of colors, materials, and leg configurations, our DeWitt bar and counter stools provide practical seating options for both residential and commercial spaces - from the modern home's kitchen, to the office meeting room. This DeWitt counter stool with metal base is true to the original specifications, crafted from a durable polypropylene plastic shell that offers a more affordable alternative to fiberglass, with slightly more flex. The shell seat sits on polished stainless steel legs with a footrest for additional comfort and stability, and plastic feet runners to protect flooring surfaces from scratching. If you have a specific requirement for a project, we're happy to help. Please contact one of our professionals to discuss your requirements.
