## Ann | Jacobsen Egg Chair - Fiberglass

\$2,100.00

### Description

Our reproduction fiberglass egg chair honors the original design from the late 1950s. Celebrated for over 40 years, this piece takes on a heightened aesthetic in any environment and literally "frames" anybody who sits in it. The Ann egg chair features a base of satin-chromed aluminum, with a swivel and tilt-lock mechanism, and has 100% wool fabric on the interior cushions. Its molded fiberglass frame is finished with fire-retardant polyurethane foam padding and is also separately available in a wide selection of leather and other fabrics, as well as a matching footstool. If you have a specific requirement for a project, we're happy to help. Please contact one of our professionals to discuss your requirements.
