Long Horn Deluxe Excess Sofa Bed

\$2,594.00

Description

The Long Horn Deluxe sleeper sofa has a super-comfortable 10" thick mattress with Icomfort pocket springs and a layer of foam on top to give you a very bed-like sleeping arrangement. The avantgarde design has a two-position back that lets you sit up straight, relax in a lounging position, or lay the back flat for a nap or good night's sleep. It includes two Deluxe cushions and has white wheels at the back and stainless steel legs in front. The excess version of the Icomfort pocket spring upholstery is a deluxe version that has been created for those who prefer a softer sitting comfort and a softer mattress for sleeping (the excess solution also adds a different look to the product with a height of 10"). It is constructed from a stainless steel frame and legs with powder-coated steel casters. The upholstery is Teflon coated for added stain resistance.
