Greenville | Mogensen J39 Dining Chair

\$491.00

Description

The Greenport dining chair is our reproduction J39 dining chair by Borge Mogensen. The J39 is Borge Mogensen's most successful chair, inspired by his teacher Kaare Klint and American Shaker furniture. He designed the simple woven chair while development head of the furniture department of FDB, the Danish co-operative chain. The department's ambition was to make beautiful high-quality furniture available to everyone. They were particularly successful with the J39, now a classic piece of furniture for settings ranging from canteens and conference rooms to churches and private homes.
