Hexa Tapered Side Table - Gold

\$1,176.24

Description

Inspired by Luigi de Ponte's 1933 stove-top coffee pot, the Hexa side table makes a statement wherever it's placed: next to a bed, to the side of a sofa, or clustered in place of a coffee table. This six-sided table plays with proportion in a clever, dramatic manner, its perfectly symmetrical top complimented by a hexagonal base that looks different from every angle. Stainless-steel body available in brushed and polished finishes.
