Masterful Incarnation

Inspired by Platner's original creation, we recreated the expert craftsmanship and authenticity with our own Platner Lounge Chair. This chair features the same elegant precision rendered in expertly-welded steel and topped with plump cushioning and fine upholstery.

Attainable Luxury

Modern design lovers know the true value and high cost of owning an authentic original from one of the great designers of the period. We understand not everyone has ample means by which to attain such a piece. With that in mind, we offer our masterful tribute to Platner's Lounge Chair made with high-quality materials and careful craftsmanship at a modest price point. Among other such mid-century modern lounge chairs, the materials and expertise used to create our products are top quality. This allows you to own and enjoy a classic modern icon without foregoing quality.

Versatile Purposing

This modern metal lounge chair offers a versatile design usable in several settings and ways. We suggest placing a pair in a posh modern living room or several in an office waiting room. Pair with Platner side tables for a look you're sure to love.

Leather or Fabric

The most desirable upholstery choices providing longevity in appearance and wear are our top grain genuine leathers, premium wools, and wool blends. Upholstered in leather the chair has a sleek appearance. Wool and wool blends offer a nice textural contrast to the chair's style and exposed fiberglass exterior shell.

Neutral or Bold

Whether you tend to lean toward conservative choices or bold declarations, the chair comes in just the right hue for you. Our neutrals and standards include all the usual suspects such as brown, grey, black and white. While vibrant colors stand out in red, orange, blue, yellow and more. No matter whether downplayed or played up, this chair will be right at home in any color.

Big Persona

The chair's easily recognizable design brings big mid-century modern styling to your home or work space. It's sculpted wire base has an artistic look while its fine upholstered cushioning provides optimal comfort for hours of seated enjoyment.

About the Designer

Early in his career modern designer Warren Platner collaborated with the icons such as Pei and Saarinen before turning his focus to his most lauded creations made of industrial steel. He believed there was a place in modernism "for the kind of decorative, gentle, graceful design that appeared in a period style like Louis XV." To that purpose, he rendered many elegant steel pieces including tables, chairs and stools design enthusiasts covet to this day.

Special Care Instructions

To clean the metal base, avoid use of harsh acidic or abrasive cleaning solutions. Consult manufacturer's directions for cleaning of upholstery.
