Mirroring the uncomplicated shape and classic design of Saarinen's oval Tulip Table base, this interpretation oval dining table base provides all the beauty and function of its iconic counterpart. In the late 1950s, designer and architect Eero Saarinen set out to solve a specific design problem when creating this hallmark table design, "The underside of typical chairs and tables makes a confusing, unrestful world. I wanted to clear up the slum of legs." The result-his simple yet elegant "legless" pedestal base- a must-have piece revered by modern design lovers the world over.

Due to their weight we do not recommend the base be used for any top larger than 78" long.

Exacting Look & Function

With Saarinen's mission in mind, we created our interpretation table base to reflect the authentic-quality and expert craftsmanship inherent in the original design. It features the same legless design with slender pedestal base ideal for supporting a classic oval shape table top.

Attainable Price Point

While the original's price far exceeds many modern design enthusiast's budgets, our interpretation of the Tulip Table base has all the classic features and premium craftsmanship as the original at a much more manageable price point. Among other interpretations, the materials and expertise used to create our products are top quality. This allows enjoyment and ownership of a classic modern piece without sacrificing quality for attainability.

Color Options

Versatile color options allow the table base to meld with many decors. The base's white color option provides a crisp clean look ideal for light and airy dining and work spaces.
