Lava Trash Bin

\$53.00

Description

Lava was designed for those who appreciate the irony of a trash can, that is effectively throwing itself in the trash. While there are likely some quantum physics behind this, we prefer to think of Lava as a study in self-reference. As you crumple up those pieces of paper, you can be reminded that your receptacle has already beat you to it. More than just a conversation piece, Lava turns the once ordinary task of trash disposal, into something humorous and uplifting. Set Includes: One - Lava Modern Trash Bin
