Elaine Dining Chair

\$303.00

Description

This groundbreaking design combines retro, modern and rustic contemporary into one sensible and stylish dining chair. The Elaine Dining Chair with Cane Back features a rectangular and perforated mesh backrest, similar to the retro diner chairs of the 1960s. The main difference is the material it's made from. It is built using real cane and its frame is built from wood. It has a 4-legged base with slightly angled back legs for extra support. Its vintage-modern appearance is a wonderful way to add a touch of the past with elements of the present into your dining room.
