## Paris 2 Dining Chair

\$105.00

## Description

The Paris Chair is a contemporary version of a mid-century modern classic featuring an iconic molded plastic seat and eiffel base. This eiffel base originated in the golden era of furniture design created by famous furniture pioneers Charles and Ray. Its molded plastic seat is a renowned style among design enthusiasts. Its high backrest and contoured seat perfectly cradles the body for exceptional ergonomic comfort. Its 4-legged base is reinforced with metal criss-cross wires giving it its "eiffel" name similar to the legendary Eiffel Tower in Paris. No need to worry about pet fur, dust, spills or messes either, it is easy to wipe clean and keep looking brand new. This is an incredibly popular chair versatile enough to fit in a variety of design settings.
