Peterson Dining Chair

\$158.00

Description

The Peterson Dining Chair is a shaker classic transformed into a contemporary charm. Its traditional spindle backrest is enhanced by curving on both sides. This creates a body cradling effect for added comfort combined with the ability to stack them if needed. This makes both storing them and cleaning the floors around them easy. Made from plastic and metal, it has a wood-like appearance, yet it is more lightweight, supportive and durable than a typical all wood dining chair. This dining chair is perfect for a variety of design settings including modern, contemporary, shaker, farmhouse, rustic and country cottage
